This ebook is not intended to give medical advice, make any diagnoses or keep you from seeing your physician. It only refers to work that is publicly available to anyone. Again, the information contained here is not intended to diagnose, treat, cure, or prevent any disease. Suggestions and ideas presented in this document are for information only and should not be interpreted as medical advice, meant for diagnosing illness, or for prescriptive purposes, and should not in any way be used as a substitute for the advice of a physician or other licensed health care practitioner.

Readers are encouraged to consult their health care provider before beginning any treatment, cleanse, diet, detoxification program, or any supplement regimen. If you use the information without the approval of a health professional, you prescribe for yourself, which remains your lawful right, but the author does not assume any responsibility.

This ebook and the website www.project.nsearch.com contains general information about medical conditions and possible treatments. This ebook and the information on www.project.nsearch.com is for educational purposes only and should not be taken as medical advice of any kind. Glenn Canady is not a medical doctor and can give no medical advice. You should consult your physician and get approval for anything in this informational ebook.

The medical information in this ebook and on www.project.nsearch.com is provided "as is" without any representations or warranties in relation to the medical information in this ebook and on www.project.nsearch.com

Glenn Canady does not warrant that the medical information in this ebook or on www.project.nsearch.com is complete, true, accurate, up-to-date, or non misleading.

You must not rely on the information in this ebook or on www.project.nsearch.com as an alternative to medical advice from your doctor or other professional healthcare provider.

If you have any specific questions about any medical matter you should consult your doctor or other professional healthcare provider.

If you think you may be suffering from any medical condition you should seek immediate medical attention.

You should never delay seeking medical advice, disregard medical advice, or discontinue medical treatment because of information in this ebook or on www.project.nsearch.com

Glenn Canady is not suggesting you use any product or treat any illness as described in this ebook or on www.project.nsearch.com without the expressed consent of your consulting physician.

Before we get started with some of the things I've discovered over the years, I want to tell you a little about me so that you know I'm a real person and you know a little about my background. I give this ebook away freely because I think the information could be useful to some of you. Information is power and I believe some of this information can save lives. You'll always find the latest version of this book at www.project.nsearch.com Just join the site and login and then go to the "Ebooks" or "Bonuses" menu option that will be visible when you login. The latest version of the ebook will always be there along with some other great information I come across relating to free energy that you will enjoy also.

Jesus Christ Is The Source Of All Healing!

I fully committed my life to Jesus Christ in my late forties. Jesus Christ is my Lord and Savior because I know he's real from my own experiences. I've seen my prayers get answered in truly incredible ways and had miraculous healing in my own life. Sometimes God leads me to the exact natural treatment I needed to heal something but I've also seen God heal me instantly too! There are people in this world who can absolutely heal others in the name of Jesus Christ because God has anointed them to do this. A man I've known for over 35 years has been anointed by God to heal others in many ways with his voice when he reads God's word!

To get more information on how you can be healed in the name of Jesus, please go to <http://www.jesushealingnow.com>

We will send you to a special anointed version of God's word that provides healing and brings you closer to God.

If you want healing in your life then the most important thing you can do is get right with God and ask Jesus to help you. God can heal you of any disease or even bring you back from the dead if it's his will. Never forget this! Start with God first!

I've personally had success with many of the things in this book and I've done the research on the others. I encourage people to give this ebook to everybody they know so this very important knowledge can be spread around the world.

How You Can Help Us Spread the Word!

Help Our Ministry!

God wants us all to support a ministry of some type each week. We have a ministry that has been tasked with recording the anointed Word of God so more will be healed! You can donate to our ministry using the Donate buttons in the right column at www.project.nsearch.com or using the donate button at www.beforeitsnews.com our other site that spreads a lot of health truth from patriots worldwide!

Again be sure to learn about how Jesus can heal you using a special anointed recording called God's Word Speaks at <http://www.jesushealingnow.com>

Share This With Others!

Share this information by telling others to sign up for my newsletter and ebook on this page.

Project.Nsearch.com

The very first community of truth we started in 2010! Please share or contribute if you like!

I created www.project.nsearch.com to expose the knowledge that has been hidden from you by governments, media and the medical industry. Before we even begin, I need to make something very clear. My background is engineering. I do not have a medical degree or

formal medical education so you must do your own research and consult a doctor before you decide to undertake ANY medical treatment. Hopefully you have a doctor that is not against trying natural treatments or you can find a naturopathic doctor who treats with natural products.

Just because your doctor wears a white coat, doesn't mean they have ALL the answers. They usually only have all the pharmaceutical treatments because that is what he studied in his Rockefeller funded medical school. My research has shown just about every single pharmaceutical solution comes with side effects. They don't work well at all in my opinion because they want you to take them for life but you have to decide this for yourself. Sure there are some absolutely necessary drugs out there that must be used sometimes so I'm not saying all pharmaceuticals are bad. But in my opinion, there are natural alternatives for many diseases that can eliminate issues. If pharmaceuticals really worked great, you would only have to take them for a limited time instead of making you a lifetime customer! Most likely there is a natural product that will treat you better than anything a traditional doctor will tell you about.

You must look for these natural solutions and make the ultimate choice. Your traditional doctor (M.D.) has never studied any of the alternative treatments in this book because he has only been encouraged to look at Big Pharma solutions since medical school. I have studied far more alternative treatments than most M.D.'s because they are discouraged at every level for doing so. I have a friend who completed a nursing program and he wasn't told one thing about natural treatments but had to study a huge book with over a 1,000 pages about pharmaceutical drugs! Traditional doctors and nurses are brainwashed against all natural treatments for the most part. They don't know anything about them and usually would never recommend them! How can you trust them?

I created this ebook to show you things I've researched and things I have used myself personally with great success. I will tell you if I have used the product in this ebook and I only discuss the very few products I feel are truly amazing. These are just my opinions and nothing in this book should be considered medical advice. There is a lot of worthless snake oil out there making wild claims but there are also some amazing products that have been hidden from you and those are the ones in this book.

I am simply sharing my research with you and letting you take it from there. Everybody is different so there is no guarantee that any treatment in this book will work on a particular person. Nothing works for everybody all the time and by law I can't say anything will cure you because I'm not a doctor but these are options you might want to do more research on. It is my belief that the natural treatments in this ebook will help many people and this is why I give it away freely. My only request from you is that you will spread the word about this ebook and have your friends sign up for my newsletter at www.suppressedhealthsecrets.com so we can educate them about natural treatments too! Also tell them about Project Nsearch at www.project.nsearch.com so we can get more members to spread the word in the future. I am going to give this book freely to every single person who joins Project Nsearch. I will never charge money for this ebook. Let's spread natural treatments together!

If I was told I had cancer, I would research all the alternative treatments in my ebook but that is because of my own research. You should always talk to your doctor and make your own decisions. Remember, by law nobody can tell you anything can cure cancer or any other disease! Even if it worked 90% of the time they couldn't tell you!

I've heard many success stories about APeX at ApexWaterForLife.com , Humic at www.besthumicfulvic.com bioavailable copper at Mitocopper.com and nutrition that is 100% absorbed at www.prodo1.com so you'll want to check out these products first for yourself.

I found APeX quite by accident while on vacation and I know it was a God thing! A man I've known for three years told me how APeX helped three people he knew with serious illnesses! This product was originally created by a German scientist! This scientist figured out how to create a nano cluster with silver at the center and surrounded by oxygen! It's sort of like a smart bomb and delivers it's oxygen directly to where it's needed! It is an anti-pathogen, anti-viral and anti-bacterial and it's helped people I know is all I can say about it! It kills the bad guys! Watch all the videos on ApexWaterForLife.com

I believe our medical system is based primarily on money and the doctors are only as good as the information they were told in medical school and in the journals they read. The information in this ebook will never be shown in the medical journals because the system is setup to only push conventional medical solutions that are always expensive and never actually permanently cure the disease in my experience! This is my opinion based on my research but you must pray about your own case and do your own research and make your own decisions about what to do. I am not here to make any decisions for your health nor am I telling you what to do in any way. Research it all for yourself, pray to God for guidance and make your own decisions.

I wanted to put down everything I have learned in a short book so that you could at least have options you won't get with traditional medicine. I want you to do the research yourself also and pray for guidance on what you should do. The choice is ultimately yours to make alone. I want all of you reading this ebook to find the solutions you seek. One thing I suggest you do is start doing deep research using the search engines and writing down the things you find. These natural treatments are very easy to find using the Internet so the first thing I want you to do is start doing some searches for "natural cures" or "natural treatments". If you search for things like that and do deep research over a day or two, you'll find amazing information. You'll find testimonials of people who had success with one thing or another and then you can start researching those things they tried. As always try to find a good naturopathic doctor who uses herbs and natural type products to successfully treat diseases too. If you get a good relationship with one that can look at things you find it could be very helpful to you also.

If These Natural Treatments Work, Why Won't My Doctor Tell Me About Them?

Some people say "If there were any natural treatments available, my Doctor would tell me!". If you're one of those people then just stop reading this ebook and go to your doctor and see how that works out! Nurses are really bad about thinking that doctors know everything just because they might know more than they do about some things. I've told many nurses there are many natural treatments to cancer according to people such as Doctor Coldwell (google him) but they just look at me wide eyed like I'm totally insane! They can't even conceive of

natural cancer treatments being out there because they work for the system and this system hides all things natural in favor of expensive and usually patented solutions that don't work in my opinion. It's all about money not the natural treatments when you really study the history. The nurses and doctors usually don't know this though. They are doing their best in a flawed system that could be helping so many more people with natural treatments while saving so much of everybody's money. It's really sad but it's the world we live in right now. President Trump made a good first step by allowing people who were dying to try experimental drugs but Trump needs to go much further and warn people of vaccines and push natural treatments too!

By the way, if you want to hear directly from a Doctor who was told the plans of the New World Order conspiracy in 1969 then I have a great video you must listen to. It's from a tape recording done by Dr. Dunegan and it will tell you many amazing things that have been hidden from you. He was told in 1969 that the Rockefeller Foundation had the cures for 98% of all cancers in 1969 but that they would not release them because there were too many people in the world and they had to die of something! You can hear this information in the video in my article below. This is the testimony from a doctor who was told this at a meeting! This is not my opinion!

Doctor Killed After Releasing NWO Plan!

<http://www.project.nsearch.com/profiles/blogs/doctor-killed-after-releasing-nwo-plan>

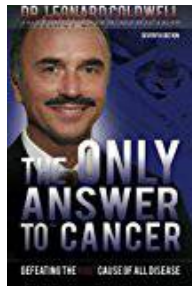

When you learn the information from Dr. Dunegan you'll realize there are many reasons that doctors don't know about natural treatments.

Some unethical doctors would never show you a natural treatment because of their greed! Some doctors are just plain greedy and even if they KNEW there was a natural treatment for heart disease that only cost a few hundred dollars, some doctors wouldn't tell you because they have medical school bills to pay. If an unethical doctor makes \$10,000 for every heart bypass operation he does and he's in debt up to his eyeballs paying for that new mansion and Lexus, do you really think they would want to go out and find a natural treatment that might only make him only \$50? Some doctors do figure it out and quit or become naturopaths and promote natural treatments but they are few and far between! If more doctors would learn about natural treatments we would never be in the position we are in today!

If we had a good medical system, doctors would always search for natural treatments first and only resort to other solutions when there was nothing better available. All testing of natural and pharmaceutical treatments would be done by neutral third parties! If our medical system worked this way, we would have a much healthier system and the costs would go down exponentially! My Dad died of cancer after having almost \$1,000,000 spent on chemotherapy and other things! Now I realize it's very possible he might have been saved with natural treatments in this ebook! I wish I had known about them and he could have tried them! After I found out the truth that many cancers could be treated naturally, I decided that I would never do Chemo no matter what I was told. Everybody must learn all their options in this ebook and many other great websites out there and then make their own choices! I'm not telling you to do anything or to not do anything. This is a decision for you and your doctor. I simply provide information and it's up to you to do more research on the things I show you and make up your

own mind after you pray about it hopefully.

Think of how much money could be saved with natural treatments! Dr. Coldwell who learned about the medical system being a total scam has written books on treating cancer and disease. He told me in an interview that hemp oil alone can successfully treat about 80% of all cancers. He told me he has written about over 100 natural treatments for cancer. He advises people at no charge and has over a 97% successful treatment rate if you haven't done the chemotherapy yet! He has sold over 50 million books but they won't put him on any best sellers list! Why? Because the system is rigged! You should get Dr. Coldwell's book if you know anybody with cancer! The system has tried to kill this great man many times! He has full time body guards now!

[Amazon Link for "The Only Answer To Cancer" by Dr. Leonard Coldwell](#)

If you have cancer you should visit Dr. Coldwell's website because he gives free advice by email there at

<http://drleonardcoldwell.com>

Think of how much money and lives could be saved with some of the treatments listed in this ebook that have helped others! It's a staggering amount of money!

I created [Project Nsearch](#) to collect and share information you can't get anywhere. The US government like most other world governments has been completely taken over by Corporate interests. They don't serve the people's interests, they serve the interests of Big Pharmaceuticals that have huge lobby groups with lots of cash to spread around to the congress critters. They get lots of money from Big Pharma and will do anything possible to keep natural treatments off the market for them. We've had many successful natural treatments for cancer and other diseases but none of them will be allowed to be used in our present absurd system of Big Pharma health care.

There's a great video that details some of the amazing natural treatments the US government has prevented people from getting. You can search for it on Youtube by searching for "Cancer – The Forbidden Cures". Here's a link that is working now. Please share the video with others! They take this video down all the time so if it's not working just search youtube for "Cancer the Forbidden Cures" and you'll find it.

Watch This Video Sometime - "Cancer the Forbidden Cures" and you'll probably get angry like me!

<https://www.youtube.com/watch?v=NAMYAoiCSsI>

After reading this book, be sure you go through the Health Video section of [Project Nsearch](#) as our members post new stuff there and in our Health category of the Forum.

<http://www.project.nsearch.com/video/video/search?q=health>

These areas are updated every day and always have new information in them. Our members are passionate about spreading the truth and do a great job covering Health issues because it's so important to all of us! In our forum you can read and post anything to do with Health. If you find a natural treatment that has worked for you or others then post it! We are spreading this information around the world and need your help and testimonials on things that work!

APeX (Anti Pathogen Extreme)

I would try this product first if you have any issue you are dealing with. It's a universal Anti Pathogen. It's an anti-Viral, anti-bacterial and anti-inflammation. Nothing works for everybody and by law nobody can say it can successfully treat anything at all. All I can tell you is to look into it, watch the videos and make your own decision! I can tell you it helped my friend Stew Webb and his father recover from a very serious illness the doctors didn't know what it was! I take APeX every day! I always have a lot on hand in case some type of crazy virus like Ebola or something even worse gets out! At least I have something that has a chance at working on a virus or bacteria right in my home. You need to depend on yourself because if something really bad ever happened you wouldn't even be able to be seen by a doctor most likely. You can find all the details about it at www.apexwaterforlife.com and www.MitoCopper.com

Humic Fulvic

Our soils are depleted from the building blocks are body needs. Pesticides kill these building blocks. Humic Fulvic gets your body everything it needs! Read the incredible testimonials at www.besthumicfulvic.com Amazing stuff I take every day! I noticed my dreams became super vivid the very first night! I think it gives your brain and your the electrolytes it needs to heal and work properly.

Prodovite & Nsorb

Once you learn about Prodovite you'll literally throw away all your other vitamins and feel much better too! You won't spend any more for this product after you stop taking everything else anyway. Prodovite has everything you need and is 100% absorbed by your body versus 5-10% absorption by solid vitamins! Get more information on this patented technology at www.prodo1.com or by calling my team at 888-809-8385. Prodovite has helped athletes increase their strength and recover from serious issues. College football players have been able to increase their lifts by 50 pounds very quickly! I take this product every day and it's helping me in many ways including weight loss and swimming. If I feel like I'm tired, a shot of Prodovite and I'm ready to take on the world again! Nsorb is a digestive enzyme made by the same company and this is a must use product if you want to lose weight. Here's my story on how I'm losing tons of weight. I recently got the secret!

How I lost 13 pounds in 17 days using ProdoVite and Nsorb!

I finally learned how I can easily lose weight through my friend T.J. He had been the one to get me to try ProdoVite when he told me he used it to lose 60 pounds in 6 months! I wish I would have figured his secret out 10 years ago!

I've been struggling with losing my extra weight for a while now. It seems like no matter what I did I couldn't lose it no matter how hard I worked out. I would just maintain the same weight pretty much. Here's what T.J. taught me to really melt the pounds off! First I began taking ProdoVite and their other product called N-Sorb which is a digestive enzyme. I take a capful of ProdoVite in the morning and one capful right before bed. I take the N-Sorb enzymes 30 minutes before bed on an empty stomach. To keep me on track T.J told me I must get a free app on my phone called "MyFitnessPal".

This app is GREAT and was super important for my success because it let me put in my height and weight and let me set my goal on how much weight I wanted to lose per week. It tracked all my calories for me and had everything you could imagine in its database so you could search for anything you were going to eat to see how much calories it would be. On the first day I put in my goal of losing 1 pound per week which is what it recommended. Then it told me how many calories I could eat for that day. You can just search for something "Wendy Single Burger" and select it and it tells you how much that will be in calories etc. It has everything you can imagine in the app. I didn't worry about anything but calories. This app makes you appreciate your food and cut out all soft drinks and sweets. I just drank water during this test and no sweets or snacks.

I don't normally eat breakfast anyway so I saved up all my calories from the "MyFitnessPal" app for lunch and dinner. The ProdoVite let me easily skip breakfast without being hungry at all even if I had a late lunch! I always weigh myself first thing in the morning before I get dressed so it's always consistent. You want to weigh yourself in the morning before you drink any water. It became sort of like a video game to me. I wanted to make sure I went slightly under my allowed calories per day so I could keep my streak going. I could choose how I would use those calories.

Usually I liked to eat more of my calories at lunch since it's better to go to bed without as much in your stomach. I made sure I did my ProdoVite in the morning and right before bed. I made sure to take my Nsorb enzymes 30 minutes before I went to bed also since my friend T.J. told me they worked great as long as you made sure not to drink soft drinks as the high fructose corn syrup would negate them. When your using the "MyFitnessPal" app to count up your calories you want something like a juicy burger much more than a coke or a sweet that will be very unsatisfying! I couldn't imagine blowing the calories on a soft drink or sweet tea anyway. I wanted filling food at lunch and dinner!

I used a scale that could measure to the .1 of a pound. Every day wasn't always lower sometimes I stayed the same or went up slightly. But the trend was always down! I ended up losing 13 pounds in 17 days! With the app you can choose how much you want to lose in a week. I probably went down a bit too fast but I was sick of the extra weight!

If you want to try this weight loss plan just go to www.prodo1.com and buy some ProdoVite and Nsorb. I suggest you sign up as a representative and get on Autoship for both ProdoVite

and Nsorb. Even if you don't need to lose weight then just become a rep and get (2) Prodivites per month or try one of their great products. If you sign up at www.prodo1.com you will get contacted by a rep who can answer any questions also. Or you can call my team at 888-809-8385 Monday through Friday 9am to 5pm EST. You will LOVE Prodivite and can throw all your other vitamins away when you see how this stuff is 100% absorbed!

Copper 1 – You haven't tried copper until you try this one!

If you do nothing else in this book, try this product just ONE time at www.mitocopper.com and you will take it for the rest of your life! Watch the amazing videos on the page linked below. It shows how this new form of bioavailable copper called Copper 1 destroys these nasty things called spirochetes in everybody's bloodstream. It forces these spirochetes out from the red blood cells where they hide and rob us of energy and slow down our immune systems. It turns out most problems we all have are due to copper being depleted in our blood! But don't just rush out and buy a copper supplement because those are blue in color which means they are oxidized and dead to the body. The inventor explains it on the interview you'll see in one of the videos. He got a patent on bioavailable copper. Nobody else has the patented formula! I think a great combination is to take APeX and this Copper.

Watch the amazing videos on our page at

<http://www.mitocopper.com>

I believe every person needs this product! I've never felt so much better with any other product. It supercharges your immune system and gives you more energy. I feel like a million bucks! We're selling this product directly. You can get it on our site here.

<http://www.mitocopper.com>

I think this is one of the most important things you can research so please watch the video on our site that shows what happens when this special form of copper gets into your blood! It's amazing! I take it every day and can tell I have way more energy! No more aching back either! I think you'll see some fantastic results with this one. The creator of this product hasn't had a cold in 6 years! He says all other copper supplements on the market will not do what this does because they are not bioavailable.

I've researched diseases caused by copper deficiencies and there are a bunch. Here's just a

few: osteoporosis, osteoarthritis, rheumatoid arthritis, cardiovascular disease, colon cancer, cancer, dementia, heart disease, diabetes, lung disease, C.O.P.D., gastro-intestinal disease, eye disease, head ache, urogenital diseases, Blood Pressure / Hypertension, Hyper acidity, Anemia (Blood shortage), Gastro : entities, Rheumatism (Pain in joints/muscles), Dysentery, General Paralysis, Rectal Piodapse, Obesity, Constipation, Arthritis, Hostorthobics, Sinusitis, Diabetes, Tachycardia, Eye diseases, Giddiness, Ophthalmic Hemorrhage & Ophthalmic, Cough, (Reddish eye), Asthma, Irregular Menstruation, Bronchitis, Leukemia, Pulmonary Tuberculosis, Uterus Cancer, Meningitis, Breast cancer, Kidney stones, Laryngitis and much more!

Stop taking your current vitamins and just try Prodivite and our copper at MitoCopper.com for 6 months and I believe you'll see big improvements in your health!

All you need is good nutrition from Prodivite and a bioavailable copper supplement and your pH will begin to normalize. Having your pH not at 7.0 is where ALL the problems come in. Being too acidic or too alkalized is bad and cuts years off your life. Stop drinking all sodas and cut out sugar except for special treats at most.

The chart below shows the amount of lifespan that has already been taken away from the general population. Note that the blood pH was no longer neutral 500 years ago when the copper depletion/iron poisoning started on a mass scale.

7.00 Neutral; lifespan of 120 years, that God never changed
7.39 Alkaline in the late 1800's severe alkalosis
7.40 lifespan of 75 years; set to 7.40 in 1900 until 1975; the "normal blood pH" – loss of 45 years of lifespan & youth
7.43 set up to this value in about 1980
7.45 according to official science alkalosis starts at this point
7.54 set up by 2006
7.55 45% die sustaining this pH; set up 2013/2014; final phase
7.65 80% die sustaining this pH
7.70 death within days or less upon reaching this pH
7.80 death within hours of reaching this pH
6.9 Acidic; higher concentration than what is required
6.85 lifespan decreases by ~40 years. (pH is estimated)
6.8 diabetes, acidosis, kidneys start shutting down, heart failure
6.79 death

If you try the MitoCopper at www.mitocopper.com for 6 months you're going to see a huge difference! The inventor told me people should start off with 1 pill a day (at breakfast). Do this for 3-7 days. The reason you do it this way is if you have a huge load of spirochetes in your blood as most people do, you don't want to kill them too fast. You want your body to begin expelling them at a rate it can handle. If no bad detox reaction then in a few days you can up your dosage to 2 pills a day (one at breakfast, one at lunch). Do this for 3-7 days and then go to the maximum dosage of 4 pills a day (two at breakfast, two at lunch). Don't take these after lunch. It gives you a tremendous amount of energy! You'll notice it like I did probably within a day or two. If you ever feel like you are detoxing then simply cut back your

dosage for a week to let your body get rid of those nasty spirochetes! Once you've detoxed your body you can cut your dosage back to one pill per day like I do now.

You don't want to take anything else that contains copper in it because it is inorganic copper and it's very dangerous! You'll get the bioavailable copper from the mito copper supplement I've already told you about. Once I took this supplement and saw the results in just one day, I knew right then I would take it for the rest of my life! After speaking to the inventor who told me every vitamin out there is in fact bad for you because it overloads you with iron and depletes your good copper. I stopped taking my multivitamin as soon as I began taking the bioavailable copper and the [Prodovite!](#)

Dr. George Brewer has stated that Alzheimer's disease and other issues are caused by a buildup of this bad inorganic copper in the body! Read about this here!

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3172975/>

He says vitamins with copper and even copper in drinking water all contributes to this bad inorganic copper building up in your body and causing many health issues!

Distilled Water – Reverse Osmosis – High pH Water

First, most people don't drink enough water. You should drink $\frac{1}{2}$ your body weight in ounces of water. So if you're a man who weights 200 pounds that's 100 ounces of water. Cut out all the garbage soft drinks and sports drinks and drink your water!

There are people out there pushing distilled water and I drank it for a while but no longer recommend anybody drink it because distilled water is too acidic! Distilled water is only good for cleaning out toxins for a short period of time.

Reverse Osmosis water is okay to drink if you add minerals to it according to Dr. Mercola. I think Pink Himalaya salt would be good to add to reverse osmosis water so you would get some good minerals. Typically you would add $\frac{1}{2}$ teaspoon of pink salt per gallon.

I know believe the very best water you can drink is high pH water. You can buy this water in health food stores but the problem is that it comes in plastic containers which I don't like because all plastic can leach. Also you don't know how long the high pH water has been sitting there. The pH of the water will reduce the longer it is sitting in the store. It's best to drink high pH water as soon as it's created. I recommended a machine called the Living Water machine which filters the water and lets you adjust the pH all the way to 10 pH. It creates Living Water! If you can't afford this machine then make sure you filter your water to remove out any toxins. Avoid fluoride at all costs in your water and toothpaste.

You can see the Living Water Machine on this page along with some great air cleaners too.

<https://5starshine.com/collections/green-home-products>

If you call my company at 888-809-8385 during normal business hours and tell them Glenn

said you could get a \$300 discount on the Living Water machine.

The Living Water is the water I drink now because it tastes good and keeps your body from becoming too acidic which is very bad. Pathogens such as cancer and viruses can only exist in an acidic body. One thing everybody should do is get pH testing strips and test their urine. The more meat, sugar, soda and alcohol you drink the more acidic your body and the more bad things can happen to it. If your urine tests acidic you need to eat more green vegetables and cut out as much sugar and alcohol as possible. There are good articles out there for making your body more alkaline and less acidic. Just don't add baking soda to your water as some suggest. I've done more research on this and baking soda can really cause some issues with your body's chemical balance. I tried it one time and it knocked my body chemistry out of balance and I could feel it! Much better to alkalize your body by drinking a green drink such as [Organifi Green Juice](#) or juice lots of vegetables as well as eating a lot of dark green vegetables and beans and peas.

Nano or Colloidal Silver is only good for topical application.

Nano silver or colloidal silver is a good product to apply topically for cuts and scrapes. I used to use it before I found APeX. The problem with colloidal silver is that it has no oxygen so doesn't work internally very well while APeX does very well inside the body!

You can get APeX at apexwaterforlife.com and mitocopper.com as it will support our ministry so we can reach more people!

One thing I discovered is you really need to have a good nebulizer or vaporizer on hand should you have some kind of infection in your lungs or nasal passages. I recommend you find a highly rated ultrasonic nebulizer or even an ultrasonic humidifier on Amazon and add some APeX to the water then breathe in those vapors. If you have any type of congestion of infection, breathing in the APeX vapor from your Nebulizer or humidifier is a good way to get it directly into your lungs. If it's a small nebulizer I would fill it with straight APeX and if it's humidifier that holds a gallon I would probably add a cup of APeX to the water. Breathe in those vapors for several minutes spread out throughout the day several times.

Personal Products I use daily!

These are some great products I use daily. It's important to stop using aluminum in your deodorant or fluoride in your toothpaste. They are poisons some of you are putting into your body every single day. I found these great alternatives after trying many other ones I didn't like.

Silver Shield Deodorant

I really like this product! It works great, smells nice and they even make their products so you can unscrew them and fill them up again. That's what I did once I tried it out. I also add some APeX to the liquid and even spray my armpits with the 4oz bottle of APeX you can get at www.apexwaterforlife.com This small bottle has a very good sprayer on it that creates a fine mist of APeX. I even spray it into my eyes it's so gentle. You can refill your 4oz sprayer with the (1) Liter APeX too.

[Amazon Link for Silver Shield Deodorant](#)

Desert Essence Natural Tea Tree Oil Toothpaste (Fluoride Free!)

This is my favorite fluoride free toothpaste so far and I've tried a lot of them. It's one of the most highly rated on Amazon too! I think you'll probably love it too! Taste so much better than that fluoride loaded poison like Crest! Crest wants you dead and dumbed down.

[Amazon Link for Desert Essence Natural Tea Tree Toothpaste](#)

Greenwich Bay Trading Company Soap Sample (15 pack)

This is cool because you can sample all their soaps and they're all made with natural ingredients and smell great! I've never seen such high reviews on Amazon for anything with 90% saying they rated them as 5 stars so I had to try them. Good stuff and much healthier than the chemical laden garbage from the supermarkets.

[Amazon Link for Greenwich Bay Trading Company Soap Sampler \(16 pack\)](#)

Other things I take daily to make sure I'm getting good vitamins and minerals daily.

Curcumin and Tumeric

Curcumin is the active ingredient in turmeric. Turmeric may be the most effective supplement in existence! Many high quality studies have shown it has major benefits for the body and brain. Curcumin is a natural anti inflammatory and it has a role in fighting foreign invaders and repairing damage. Turmeric dramatically increases the antioxidant capacity of the body. Curcumin boots brain derived neurotrophic factor linked to improved brain function and lower risk of brain diseases! Curcumin leads to various improvements that should lower heart disease. Some people say they have recovered from cancer by taking Turmeric! Curcumin maybe be useful in preventing and treating Alzheimer's disease. Arthritis patients respond very well to curcumin supplementation and it also helps against depression. Curcumin may help delay aging and fight age related chronic diseases!

I recently found the best curcumin on the market because of the way it's made. It's made using a proprietary process that took 10 years to perfect! They use a fast activating whey protein so the curcumin is quickly and fully absorbed. You can get a full dose with only 1 or 2 capsules while you'd have to take massive dosages of other products to equal the same levels in the blood! Here are the links for the different versions they make.

Ultracur – Curcumin Turmeric – Fast Acting Highly Bioavailable Curcumin – 120 capsules

We are now selling this product at www.mitocopper.com

You need to be taking a great daily vitamin / mineral supplement so your body is getting all the building blocks to rebuild itself. I found a really good one called Cardio For Life. It is especially good for helping those with high blood pressure also because it contains L-Arginine which makes nitric oxide. Nitric oxide can reduce plaque in the arteries over time. I highly recommend this product. You can get it on the manufacturer's website below or on Amazon using the link. I prefer the orange flavor. It does not contain copper!

[Cardio For Life Website](#)

Braggs Organic Apple Cider Vinegar

This is rich in enzymes and potassium. You should drink some of this daily. Some people mix a tablespoon or two in water or juice but I just do a shot.

[Amazon Link for Braggs Organic Apple Cider Vinegar](#)

Manuka Honey

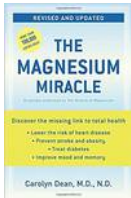

I only tasted Manuka honey for the first time a few months ago and let me tell you, this honey is absolutely amazing. I found a great brand made in New Zealand. You've never tasted anything so good! Manuka honey is considered the very best honey in the world for healing wounds due to its antiviral and antibacterial properties. People are using Manuka honey for skin care, digestion, wound care and immunology.

[Amazon Link for Manuka Doctor 24+ Bio Active Manuka Honey](#)

ReMag – The Magnesium Miracle!

Doctor Carolyn Dean has authored and co-authored over 35 books including the Magnesium Miracle which is an excellent book you must read. She found out that keeping your magnesium levels at optimal levels are absolutely essential for good health. Magnesium is necessary in over 800 enzyme systems! She created a product that doesn't have the typical laxative side effects of most other magnesium products. Having a good Magnesium level can help to alleviate such threats as heart disease, stroke, osteoporosis, diabetes, depression, arthritis, asthma and much more. This product is absorbed 100% at the cellular level!

[Amazon Link for “The Magnesium Miracle” by Carolyn Dean](#)

[Amazon Link for ReMag – The Magnesium Miracle](#)

ReMyte Mineral Solution

A great companion product to ReMag is ReMyte which is a concentrated solution of 12 important minerals that will also work to keeping your Magnesium levels from being depleted.

[Amazon Link for ReMyte](#)

Nascent Iodine Supplement

With the Fukushima nuclear meltdown of 3 reactors, radiation went all over the world! This was never reported to you on the fake news but the Pacific ocean is very contaminated and of course the winds and water is still carrying the radiation to us here in the United States and all over the world. You need to be taking a good iodine supplement! This one is one of the best out there for supporting your thyroid gland and protecting it against toxic halogens like fluoride, chlorine and bromine. Having good iodine levels is critical for your body's hormone levels.

[Amazon Link for Global Healing Center Nascent Iodine Supplement](#)

Coconut Oil

One of the best things you can do for your body is to give it good fats every day. Coconut oil is one of those good fats. I take a teaspoon of this in the morning when I first get going in the morning. You can also use this as a skin moisturizer, cooking oil, hair conditioner, massage oil and more. I think Vita Coco is one of the best because it's 100% organic, cold pressed and unrefined.

[Amazon Link for Vita Coco, Organic Extra Virgin Coconut Oil](#)

Natural Treatments You Need to Know About

This next section of the ebook, I'm going to jump into many of the natural treatments I've used and researched. I invite you to fully research them also. I've never had any bad side effects from using anything but recommend you discuss any treatment with a naturopathic doctor. I think other options should be considered only if APeX www.apexwaterforlife.com, Humic Fulvic www.besthumicfulvic.com Bioavailable Copper www.mitocopper.com and ProdoVite www.prodo1.com have been tried for at least 6 months and nothing is working. APeX is very effective in my opinion for many things so I would only go to these electronic systems if you've tried ApeX, Humic, Copper, and ProdoVite for 6 months with no improvement.

Amazing Devices Like Something out of Star Trek!

Royal Rife was honored on November 20th 1931 by forty four of the nation's most respected medical authorities with a banquet billed as "The End To All Diseases" at the Pasadena estate of Dr. Milbank Johnson. Rife figured out how to shatter viruses and harmful bacteria using their own resonant frequencies! He learned the frequencies to shake the viruses, parasites and harmful bacteria to death while not affecting any of the organs or beneficial bacteria! He literally created something out of Star Trek and it worked perfectly!

Eventually big money interests began to put him into frivolous and expensive lawsuits to drain his money and energy until they destroyed him and he had to stop his work! Rife successfully treated thousands of people from cancers and almost every other disease you can imagine but you'll never hear about him unless you choose to do the research yourself! You can read about the incredible story here. You'll be amazed when you learn that powerful groups have made sure you never find out about Royal Rife!

<https://www.quantumbalancing.com/rife-historyif.htm>

Luckily, others took up the work after Royal Rife died and you can still get these machines. Sometimes they list these machines as T.E.N.S units for muscle massage. These companies can never claim they can cure anything or they'll get shut down immediately. This is the insane criminal system we live in! It's a mafia type system where we the people in power want us sick and paying them money for energy when Nikola Tesla created a way to harness free energy over a hundred years ago!

I'm now going to go into some of these electronic units that work using the principals developed by Royal Rife. I will discuss a few of the better units. They increase in price as their capabilities and features increase. Some can be purchased on Amazon but some must be purchased directly through the company website.

Dr. Hulda Clark Zapper

Dr. Hulda Clark has been researching the use of electricity to kill pathogens of all types for many years. She wrote a great book you should get called "The Cure For All Diseases". I bought the basic zapper that was just a basic box with two pennies on it that you could put on your skin. I got good results from the unit but I'm very impressed about the new units she has now. You can now change the frequencies completely yourself and target certain diseases similar to what Royal Rife had figured out how to do when he successfully treated diseases with his use of frequencies during the 1930's.

I was contacted by one of the designers of Dr. Hulda Clark's Zappers and he told me there are (4) different models of the ParaZapper which the ParaZapper MY3 being his favorite. These zappers are available here:

<https://huldaclarkparazapper.com/>

Dr. Clark has a lot of good cleansing protocols also that everybody should be doing!

There is a great company in Canada called Sota Instruments that has got great products! I love everything they have and own most of their products! They have a product called a Silver Pulser that serves two purposes. First, it lets you make your own colloidal silver which is a nice feature to have especially in an emergency. We'll talk more about colloidal silver later in the ebook. Secondly it acts as a zapper for parasites and other nasties using the principals of Royal Rife. Here's how to get the product.

[Amazon Link for SOTA Silver Pulser](#)

I recommend that you also research the Silver Pulser at www.sotainstruments.com

Russian Device treats illness using electricity!

This device looks pretty interesting but I don't have this one so can't speak from experience.

The latest version of a very unique Russian device that kills pathogens through vibrations that shake them apart is called the Devita AP and it's made by Deta Elis.

Here's the link to buy their main device called the [Deta Elis DEVITA AP 30 bioresonance device](#)

[Buy It On Amazon](#)

Deta Elis has several models of this machine that do different things also. They have proof of the effectiveness of this device curing many diseases including respiratory infection, herpes, athlete's foot, candida, type 2 diabetes and more! That's why I'm so excited about it and will be buying it in the future. If I had a current health issue I would have already bought one of these devices but I will buy it just to have it for others in my family or in case I have an issue in the future!

Here's their website.

<http://deta-elis.us>

Here's a video on it.

<https://youtu.be/L-jkP8zksrg>

High pH Water & Air Cleaning Units

Many people also swear by High pH ionized (high alkaline) water and clean ozonated air as keys to great health! You can do research on this on Google and Youtube if interested in finding out more about it.

A company called Vollara makes a great pH water machine and a very nice air cleaner that destroys mold and mildew using ozone. Studies have shown 50% of all homes in America are contaminated with mold! This Vollara Freshair Surround air cleaner kills all mold in your home! I've seen the laboratory tests on this unit and it works! You can see and buy all the Vollara products on this website. You can also get them on Amazon using links below.

Get All Vollara Products Here:

to take \$200 off the regular price when purchased from www.greenpurehomes.com

How I Treat Myself If I think a cold or flu is trying to get me!

If I feel any kind of congestion or a cold in the very beginning stages, I start taking ApeX from <http://www.apexwaterforlife.com/> by the tablespoon every few hours. If I feel congestion or anything in my lungs, I put some Apex in my [Mabus Vaporizer](#) and take in about 30 breaths. You can also use an ultrasonic type vaporizer with the APeX. I also up my intake of raw garlic and Vitamin C. You want to take about 10g of Vitamin C spread out throughout the day and also up your vitamin D to to 10,000 IU. I have found research saying you really want to be taking 5,000 IU of Vitamin D to give you a great outlook and boost your immune system. Unless you are outside at least 45 minutes per day you need more Vitamin D. You can get a great organic Vitamin D3 supplement on our website at www.mitocopper.com

Another product that I've had great success with is Humic Fulvic. It provides trace minerals and also has antiviral properties. I've seen it help so many people. We have a great Humic Fulvic at www.mitocopper.com that our customers really love. I take some APeX, Vitamin D3, and Humic Fulvic as part of my routine.

I haven't gotten sick in over 7 years by following these guidelines! I've only felt the initial stages when you know something is trying to get you! The most that happens is that I feel the very beginning stages of something and then I smash it with Apex and never get sick! The inventor of APeX has not gotten sick in over 20 years since he began taking APeX!

In fact since I've been doing this, I've never get sick when I used to get sick at least once or twice a year! By the way, I strongly believe flu shots are the biggest scam in the world. They don't work and have all kinds of nasty things in them. I've never taken a flu shot and never will. Did you know Donald Trump said in an interview he never took a flu shot and never got the flu! I believe there is an evil group at the very top of the world who actually has put some very nasty things in all the vaccines and flu shots that destroy our immune systems. Many doctors who said the same things are now dead in mysterious circumstances. The doctors and nurses who push the flu shots aren't evil, they're just ignorant and have been brainwashed in their schools funded and controlled by this evil group who controls our world.

GMO – what it is and how to avoid it!

GMO stands for Genetically Modified Organism and it's being forced down our throats in America in a big way! Our criminal government won't even allow this GMO Frankenfood to be labeled in any way. Even a Monsanto executive admitted that putting GMO on GMO food would be like putting a Skull and Crossbones on it! They know that people will avoid it!

They tell you that GMO is wonderful but it has been created in a laboratory and has never had long term testing done on humans. You didn't get to vote on whether you wanted GMO introduced into our food supply, the government just allowed it! GMO crops don't produce seeds so it's just a money making scam by companies such as Monsanto so that farmer have to come to them year after year for the seeds. But it's far worse than a money making scheme. Many animals have died after being fed GMO. Some GMO crops contain pesticides inside the plant and when you eat this you suffer the effects from this as it breaks down in your stomach and intestines. Many countries in Europe have smartly banned GMO food because they are concerned about contaminating their natural crops with a product that has never been properly tested and has hurt animals already in testing.

Over 85% of the corn in the United States is now GMO and it's being fed to the animals so you're eating this stuff even if you don't want to. I recommend avoiding as much GMO food as you possibly can and have posted an article that tells how to avoid GMO by looking at the barcodes in the Supermarket that will tell you if the food is GMO or not. If the barcodes on the produce begin with an "8", then it's GMO and should be avoided! Read the full article for more details. There are even great phone apps now to help you. Here's a good article that talks about them.

<http://foodrevolution.org/blog/non-gmo-apps/>

The Cancer Treatments That Nobody Will Tell You About

Everybody already knows that if they cancer, their doctor will recommend Chemotherapy. Did you know that if you do just one chemotherapy treatment, you can no longer donate any of your organs because they have been so damaged. Using chemotherapy for cancer is like spraying your yard with Agent Orange because it has a few weeds and expecting only the grass to grow back! It's total insanity but it makes some companies and doctors a lot of money so they keep doing it. The new world order wants to kill off 95% of the world's population so they probably love chemotherapy for that reason alone.

I have personal experience with our medical system because my Dad died of cancer in 2009 after undergoing well over \$1,000,000 worth of cancer treatments including many rounds of chemotherapy. My Dad had great insurance or he wouldn't even have gotten the best care modern medicine in the US could give him. But all that money spent based on the advice of all the doctors didn't do one bit of good. The chemotherapy did stun the cancer and put it into remission for a few years, but then it came back stronger than ever and the chemotherapy had so damaged my Dad that he had no chance at all. I wish I had known about Apex when my Dad was still alive! Personally if I was told I had cancer I would take APeX www.apexwaterforelife.com plus Prodovite (www.prodo1.com) and our amazing HumicFulvic at www.besthumicfulvic.com I would also cut out all sugar from diet entirely.

After my Dad was gone, I also discovered that Rick Simpson had successfully treated many hundreds of people of all types of cancer with hemp oil. For a few dollars, he was able to successfully treat all types of cancer and these were terminal cancer patients who had been told to go home and die!

Here's a video where you can learn all about Rick Simpson and his hemp oil treatment.
https://youtu.be/YuQVeeZki_E

So this is the system we have in the world. Man successfully treats cancer – man gets in trouble from government getting payoffs from Medical Establishment! This man should have been given parades but as always when you have a criminal government running things they don't want a cheap effective treatment for cancer. Cancer makes the medical companies a lot of money and the people at the top will do anything to protect these billions of dollars! They will lie, they will keep natural treatments off the market, they would even kill if need be to keep the con going! Many people have died getting the truth out about it!

Did you know that all the founding fathers of the United States all grew Hemp and it was

used as effective medicine for over 100 years in this country? In fact, the AMA recommended that it NOT be taken off the market when they made marijuana illegal in the 1930's but they were not allowed to attend the hearing. Making hemp illegal was a total scam against the American people so that a few families could make more money by keeping their monopolies. Hemp makes over 50,000 products and we could have even powered all our cars with it. Henry Ford's first car could run on hemp oil!

Change your eating habits First!

The first thing you must do for cancer and other diseases is change your diet immediately to all natural. You'll want to go with organic vegetables and cut out all processed foods and drinks. White meat is not bad for you if eaten in moderation. However, you don't have to eat meat everyday and many people are giving it up entirely and getting their protein from vegetable sources. There are many extremely healthy people out there that have changed their eating habits entirely and given up meat entirely. I have not given up meat so I cannot speak from experience on this yet. But if you having health issues and nothing else is helping then this is something you should research also.

I was just told about an incredible book called "Food Your Miracle Medicine" by Ruth Carper that you will want to track down and read also.

Cancer has already been successfully treated in many different ways!

The Cancer Society is a complete scam in my opinion because they know very well that there have been lots "successful treatments" for cancer out there throughout the years.

They keep begging for your money so they can get "the cure", but there are already many things that have great success out there. Hemp oil has been known to help with cancer for decades. Think of how many lives could have been saved and how many trillions of dollars would have been saved if Hemp Oil was used to kill cancer instead of deadly chemotherapy.

Many people tell me, how could you know about a treatment for cancer when my Doctor is smarter than you and he says that chemotherapy is the only treatment available. Here's the deal. Your doctor means well, but his medical books were written by Rockefeller funded companies, his medical school got grants from the Rockefellers and he was given years of brainwashing in college that Rockefeller pharmaceutical products are the only option! Nobody ever showed your doctor the research on hemp oil in his Rockefeller medical school. Why would these evil people who make billions from chemotherapy show your doctor that he could successfully treat you with a few dollars worth of a natural plant? These people who have suppressed this knowledge are pure evil. That's really the only answer.

If I was told I had cancer, I would begin taking [APeX](#), [Humic](#), and [Prodivite](#) immediately. I would also cut out all sugar from my diet entirely and eat as much raw vegetables as possible. Lastly I would buy all the books from Dr. Coldwell on cancer and do some of his ideas too!

Cancer Treatment Centers that use natural treatments

Another thing I would do is find a cancer center that specialized in natural treatments because

I believe in them and don't believe in Chemotherapy. Everybody must do their own research and make their own decisions regarding treatments of any disease.

There's a cancer treatment center called Alivizatos that is in Mexico that seems to be doing all types of natural treatments and they've had some very good successes. I was just recently told about them and wanted to include them in this book . You can go to their website here to get more information. Research them as well as the other things in this ebook and make your own decisions.

[Http://www.alivizatos.com](http://www.alivizatos.com)

Here's Another Answer to Cancer

Dr Coldwell, has seen over 35,000 cancer patients has the highest cancer successful cancer treatment rate in the world. In fact, Dr. Coldwell says, "I am convinced I could cure at least 90% of all cancer patients if I had the legal platform to work with these people the Dr. Coldwell Way. As long as the patient is willing and still able to do whatever it takes and has no surgery, chemotherapy or radiation, there is no reason Cancer cannot be successfully treated in most people. Dr. Coldwell wrote a series of books called "The Answer to Cancer". I have setup a page where you can see some videos of Dr. Coldwell speaking about cancer

<http://www.project.nsearch.com/forum/topics/the-only-answer-to-cancer-dr>

Healing Cancer with Gerson Therapy

Gerson therapy works by letting the body heal itself of the cancer by flooding it with the nutrients it needs to do this. With it's natural whole-body approach to healing, the Gerson therapy reactivates the body's ability to heal itself! You can google "Gerson Therapy" and search on youtube for much more information.

Oleander – A Treatment for Cancer?

I just posted a very interesting article concerning Oleander as being a possible treatment for cancer. Here's the link to the article.

<http://www.project.nsearch.com/profiles/blogs/an-amazing-cancer-beating>

Liposomal Encapsulation Means Massive Absorption!

Everybody knows how important Vitamin C is for your immune system. I was given this next little gem by a wonderful reader of my newsletter. It's called Lypo-spheric vitamin C. When you take Vitamin C about 90% gets destroyed in the stomach and only 10% gets to the cells. This Vitamin C gets you about 90% absorption rate because the Vitamin C is made smaller so it passes through the stomach and directly to the liver which distributes the nano-particle Vitamin C to the needed cells. That's incredible!

Apricot seeds and many other great cancer fighters

I found a great little website that lists many treatments for cancer and one of the things they talk about is Apricot seeds. You can find different cancer treatments on this page along with some things on Apricot seeds.

<http://www.earthclinic.com/CURES/cancer3.html#VITAMINB17FROMAPRICOT>

Skin Cancer

Our new product called APeX at www.apexwaterforlife.com and www.mitocopper.com should be investigated. Some people have sprayed it on their cancer spots or even soaked a small piece of cloth in Apex and then put an ace bandage around it to hold it in place. Research the product and discuss with your doctor as I always recommend. I would be taking [Prodivite](#) also and putting dabs of the Prodivite and spraying APeX on the spots too.

I also found a product that also has treated some skin cancers. It's called Amazon Black Topical Salve and you can get it from www.herbhealers.com They aren't allowed to make any claims about it because of the FDA but I found that it worked on a bump I had on my nose that I believe was skin cancer. If you think you have skin cancer, I would try it as you don't have much to lose!

Do you have high blood pressure, cold hands and feet or Peripheral Artery Disease (PAD)?

I have had success bringing down my own blood pressure and I was told that Hawthorn Berries were very good for this and so far seem to have helped. I've seen many people say they were diagnosed with PAD and after taking Hawthorn Berries as supplements for one year, they no longer had the disease!

I am taking them as supplements and also in a product called Heart & Body Extract that I really believe in also. You can find a link that will lead you to much more information on Heart and Body Extract on the right side of every page on www.project.nsearch.com

Natural Substances that boost the body's immune system

Taking daily doses of Echinacea has been shown to strengthen the immune system dramatically. Other herbs and supplements which may help in this regard are chamomile, Siberian ginseng, wild indigo, goldenseal, stinging nettle, rose hip, rosemary, peppermint and thuja. Many of these herbs and supplements are used to help the body to cope with stress, which is also known to greatly suppress the immune system. Some of the biggest immune system boosters are Vitamin D3, vitamin C and zinc. Onions, horseradish and garlic are also excellent in this regard!

Grapefruit Seed Extract

Grapefruit seed extract is very good for fungus infections as well as anaerobic bacteria and both the echinacea and the grapefruit seed extract cover bacteria and viruses. Most sinus infections are fungal.

In November of 1984, a Southern research institute in the USA completed a study that compared grapefruit extract as a disinfectant to a leading commercial disinfectant. The following pathogens were involved in the test:

Staphylococcus aureus
Streptococcus pyrogenes
Streptococcus fecalis
Streptococcus pneumonia
Klebsiella pneumonia
Proteus vulgaris
Pseudomonas aeruginosa
Salmonella choleraesuis
Escherichia coli
Candida albicans
Trichophyton mentagrophytes
Herpes simplex virus type 1
Influenza virus type A2

The study concluded that grapefruit extract was twice as effective as the commercial formula for inhibiting the above microorganisms.

Similar results were obtained when grapefruit extract was compared with isopropyl alcohol, which is often the disinfectant of choice in hospitals.

The most impressive comparisons were between grapefruit extract and chlorine bleach, and colloidal silver. Bio Research Laboratories of Redmond, Washington, USA, tested GSE, a commercial chlorine bleach, and colloidal silver against *Candida albicans*, *Staphylococcus aureus*, *Salmonella typhi*, *Streptococcus faecium*, and *E. coli*. Again, grapefruit extract proved superior, the test report concluding:

"All microorganisms tested were inhibited with moderate levels of GSE liquid disinfectant. High levels of chlorine bleach inhibited the test organisms, but moderate levels were not effective. Because the GSE liquid was inhibitory at much lower levels, it may be assumed that it is ten to one hundred times more effective than chlorine against the organisms used in this study. On average, GSE proved to be ten times more effective than the colloidal silver."

Grapefruit Seed Extract and the Arthritis Connection

Researchers have long postulated that some forms of arthritis, especially rheumatoid arthritis, may be related to bacterial strep infection. New evidence suggests that several other bacteria may also be implicated, two of which are *Proteus vulgaris* and *Klebsiella pneumonia*. Both of these are commonly found in the digestive tract. Here's the connection:

The research suggests that antibodies are produced to neutralize antigens produced by

bacteria. These antibody-antigen complexes may be absorbed through the intestinal lining and thus enter the bloodstream. Normally, these complexes are filtered by the liver, kidneys, and lymphatic systems, but in some individuals, a serious complication can arise.

With Klebsiella pneumonia, this reaction usually occurs in the spinal column. A debilitating condition known as ankylosing spondylitis may develop, resulting in immobilization of segments of the spinal column, resulting in drastic loss of flexibility and consequent problems.

In the case of Proteus vulgaris complexes, inflammatory responses can occur in any joint. Left unchecked, this can produce the swelling, pain, deformity, and other signs of rheumatoid arthritis.

In some patients who are using grapefruit seed extract to reduce symptoms of Candida or dysentery, there has been a marked improvement in arthritis symptoms. And while relief may have been brought about by a reduction in Candida yeast colonization, it is very likely that the reduction in population of other, allergy-causing bacteria is also responsible for the improvement.

Treating Rashes and much more with Apple Cider Vinegar

Here's another natural treatment that I've had personal experience with. If you have a skin rash that just won't seem to go away, treat it by applying APeX at www.apexwaterforlife.com or Apple Cider Vinegar a few times a day. I had great success at getting rid of a rash using both these methods. You'll notice an improvement in just a few days and usually a week or two of treatment is all that is required to make the rash go totally away.

Pimples and Cysts

Finely ground oatmeal made into a paste and placed thickly over cysts or large pimple for hours (overnight) will empty the pus. You can use colloidal oatmeal or grind it in a blender or buy baby oatmeal. You can also add milk or cream to the dry oats instead of water.

Essiac

I was just told by an herbalist to include Essiac as a natural treatment for cancer. It was only one vote short in 1920 of being approved as an approved treatment in the Canadian legislature. There are many different forms or versions to buy. They come in dry tea you brew, liquids and you might be able to get it in capsules at a health food store.

The Big Pharma Scam

As you can probably tell I'm not very fond of Big Pharma products! But just so you can hear it from somebody else that worked for them, listen to this industry insider tell you all about the reality of Big Pharma and why you should investigate all alternatives before settling on their solutions. His name is Gary Null.

<https://youtu.be/RwCUDCQMLwY>

The Vaccine Scam

Personally if I had a child right now, I would not give them any vaccines because I've talked to Doctors who are not giving their children any vaccines and they have the healthiest kids in the world and they never get sick! You have to research them and make your own decisions. I think vaccines are a big scam now to make money and I think they are very dangerous because of the extra additives in them. We all must stop trusting what they tell us on TV and do our own research!

Many doctors are coming forward with major evidence that vaccines are causing the huge rise in autism in the United States. When I was child I was only given like 3 vaccines to go to school and now they want over 40! It's completely out of control and Big Pharma is making billions on these dangerous vaccines that cause damage to the body. From the doctors I have heard, every single vaccine does some neurological damage and I believe them! The Amish reject all vaccines and they have a 0% rate of Autism! In the last 50 years, Autism in the children has gone from 1 out 25,000 about 50 years ago to 1 out of 87 today!

Here's a good video from a doctor that is outraged about vaccines and autism and even Big Pharmaceuticals. It's a very passionate presentation by a doctor that has done his homework for many years. You will like it. See this video at this link.

The System Says Your Kids Are Required to Get All Their Vaccines to Attend School But This Isn't True – You can Get a Religious Exemption

If you just ask then will tell you that your child needs vaccines to attend but if you ask for a religious exemption form, they will pull one out of their desk. They won't be happy but there is an exemption form you can fill out. The new world order wants to give you and your kids lots of shots with all kinds of things in them. I talked to an old friends the other day and told him to not get the swine flu shot. He surprised me by saying "Don't worry, I learned my lesson with flu shots, a long time ago. The first one I got made me contract Psoriasis and I have it really bad!" So many people have experienced many bad side effects from even the regular flu shot! These flu shots contain a nasty brew of aluminum and mercury. No thanks! I'll take my Dr. Rima's Nano Silver any day! That's why the new world order wants to take away these natural products from you – they work far better than their Big Pharma garbage and the word is getting out! Again, do the research on vaccines for yourself and make up your own mind on them. Once you give your kids vaccines you can't take it back so just be sure of your choice.

The Swine Flu Shot Scam

Your TV news told you to run out and get a swine flu shot and now it's come out that it did absolutely nothing to prevent swine flu and actually killed and hurt many people. You never heard that on the news though. They just told you to run out and get the swine shot right away! The companies that produced those shots made billions and are now being sued in European courts for the scam. This is not being shown on news in the United States of course. In fact, in the US, they are STILL telling you in our media to get your swine flu vaccine! It's completely criminal but they don't care! They think you will do it because most people believe ANYTHING they hear on TV! I've put together some great videos about the

swine flu hoax on this page for you to view. Decide for yourself who is lying.

The Fluoride Scam

Here's something else that your government or media never told you. Fluoride is a very dangerous chemical that causes brain damage! If you drink fluoridated water for just 5 years, it's said that you will decrease your IQ by about 20 points! It's a cumulative poison, it builds up in your system and causes many problems. They've had cases where in droughts in the Midwest, the farmer had their wells dry up so they used city water for their cows and their cows died! Your TV didn't tell you that Fluoride was a deadly poison and was used by the Nazis to control their POW's in their prison. The Nazis found that using Fluoride in the water of the POWs made them more docile and easily controlled! It's like a chemical lobotomy and your government loves it!

Fluoride is the #1 ingredient in rat poison and they are putting it in our water! Look on your tube of toothpaste. If you swallow more than a pea sized amount, you're supposed to call poison control! The government was finally forced to warn mothers not to let babies have fluoridated water! Not many people even know that. Fertilizer companies used to have to pay money to dispose of their Fluoride waste so somebody had the great idea to get some bogus study to say Fluoride was good for your teeth and now you pay money to have yourself poisoned with Fluoride in about 85% of the nation's water systems. Europe got smart a long time ago and stopped using Fluoride entirely because they found it did nothing for teeth at all. They say it's for your teeth, then why are we drinking it! It's like drinking suntan lotion to protect your skin from the sun. It makes no sense unless you know that the new world order's stated goal is to dumb down the population then Fluoride makes perfect sense.

Here's some videos all about Fluoride that you need to watch. As you do, realize how you were brainwashed and mind controlled by TV and our government your entire life! I hope you will stop watching the TV and getting conned.

The Dangers of Microwave Cooking

Did you know that the worse thing in the world for your health is to eat microwaved food? Did your TV ever tell you that? The microwave changes the molecular structure of the food into something that is not compatible with the body. They even did a study where they heated up water with a microwave and then let it cool to room temperature and watered a plant with this water and watered another plant with regular water. The plant that got the microwaved water died while the plant that got the regular water did just fine.

Here's a video about the dangers of microwave cooking. You should never use your microwave if you want good health. It will literally kill you if you heat up everything in it that you eat. Here's a video that will explain things about microwave cooking you need to learn.

<http://www.project.nsearch.com/video/using-microwave-to-heat-up>

Aspartame (NutraSweet) - One of the Most Dangerous Additives on the Market

Another product you want to stay away from is Aspartame also called NutraSweet. Aspartame is an artificial sweetener turns into formaldehyde in the body and actually eats holes in your brain. Donald Rumsfeld got it approved even though they already knew it was dangerous. If you drink diet cokes then you are ingesting this nasty substance. Before you take another drink of that poison get educated. Here's some videos that will give you information on this very dangerous substance. I think anybody is insane to still drink the stuff after they find out what it does! Here's some videos on the dangers of Aspartame.

<http://www.project.nsearch.com/video/video/search?q=aspartame>

High Fructose Corn Syrup

One of the best things you can totally avoid is high fructose corn syrup (HFCS) which has many negative health affects. For some reason, HFCS also contains high levels of mercury which kills brain cells. What's strange is that the mercury shouldn't be in there at all as it is not in the manufacturing process. You can google and youtube search "Dangers High Fructose Corn Syrup" for more info. Stop drinking all sodas!

MMS

There is one other product that I want you to be aware of and do further research on but only if nothing else has worked. It's called MMS which stands for Miracle Mineral Solution and was discovered by Jim Humble. I have some of this product for emergencies. I can't recommend it highly simply because some people have said it's dangerous. I would only consider using it if nothing else worked in this ebook and you had nothing else to lose. Some people say it's dangerous and the governments of the world have gone after people who sell it! MMS has treated people of Malaria, Aids and other diseases from what I've seen. It's even helped treat people with Autism by getting rid of pathogens. I personally think APeX at www.apexwaterforlife.com will help the vast majority of people and should always be tried first for at least 6 months. You can find information on MMS by simply doing searches on Google and Youtube for "Jim Humble MMS". I've heard you can also get it at www.wps4sale.com If nothing else worked I would try this product after researching it. Many people swear by it!

This Book is a Work in Progress

I hope you enjoyed the material I presented in this book and that you will share it with as many people as possible. I will continue updating this book and putting updates on Project Nsearch. If you know of a GREAT product that needs to be added to this ebook, please email me information on it to glenn@nsearch.com You can reach my staff with questions on APeX and other products we carry by going to www.mitocopper.com or calling during business hours at 888-809-8385. Thank you for your support and I wish you all the best!
